

# CFCA Website Login Instructions

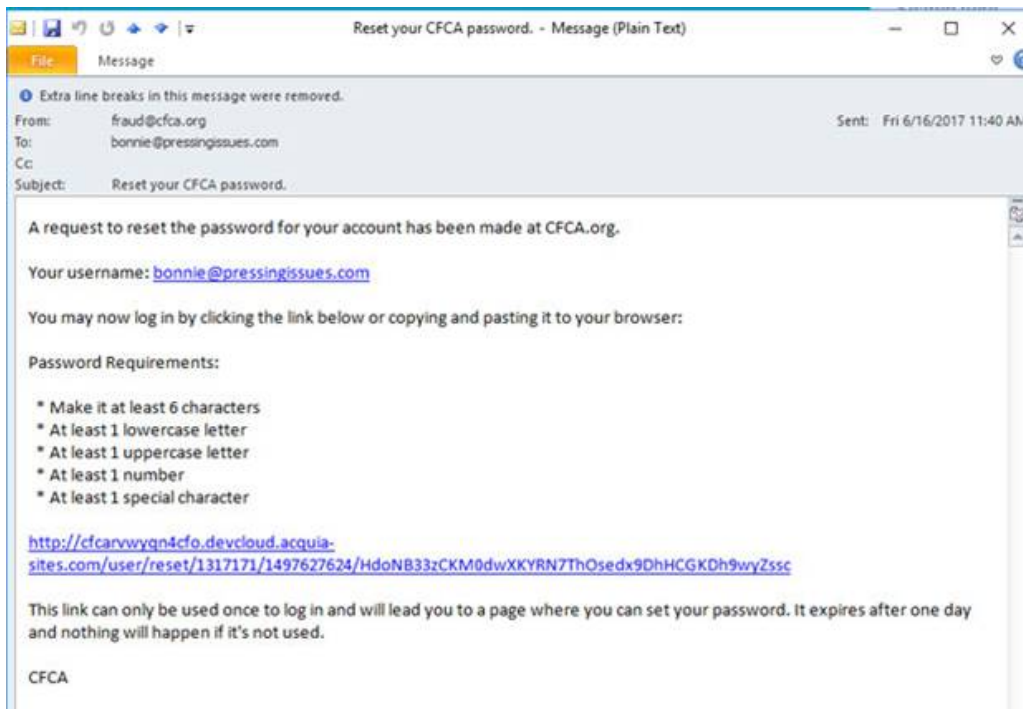

Your new username is your email address. A new password needs to be created. To do this, click on "Member Login" on the right or "login" on the top menu.

Then, click on the "Forgot Your Password?" link. Enter your email and a link will be emailed to you.

When you receive the emailed link, click on it to create your new password!

Complete your profile details, if needed and you will be ready to access all the features of the website that are only available to members:

- Presentations from meetings
- GSMA High Risk Ranges List
- The Info Sharing Network
- and much more...

We are very excited to present this new resource. If you have any challenges with this process, please contact our webmaster, Bonnie Kantor, for help: [bonnie@cfca.org](mailto:bonnie@cfca.org)
